

EVA Hot Melt Adhesive Powder

Specifications :

Price	Contact Us
Brand Name	HengNing
Place of Origin	Shanghai,China
Payment Terms	T/T,L/C,Western Union,etc.
Delivery Detail	10-25 Working Days

Detail Introduction :

Features:

Low temperature clear powder, soft and excellent elasticity , good bond strength,Excellent in resistance to washing and dry cleaning,no leaking,environmental friendly etc.

Specification:

Package?25kg/bag

Particle size?0-80?m/0-120?m/0-160?m/80-170?m/80-300?m or customized.

Operation Suggestions:

The products can be processed by: scattering machine, hot melt coating machine, hot melt lamination machine, ink mixer, manual powder, etc.

Applications:

Adhesive powder has excellent Wash Resistance, very good Dry Cleaning Resistance, especially best bonding strength with Polyester Fabric and widely used in many fields.

Interlining,

Fabric Lamination,

Heat Transfer Printing ?

Luggage/Bag/Shoe/Hat & electrostatic flocking.
